

Shri Vile Parle Kelavani Mandal's

Dwarkadas J. Sanghvi College of Engineering

(Autonomous College Affiliated to the University of Mumbai)

Placement Test Portal

(Student Manual)

Developed by Alankrit Arya, Chaitanya Kumbhar and Shivam Vora

Students of I.T. Department

D.J.S.C.E

Overview of the portal

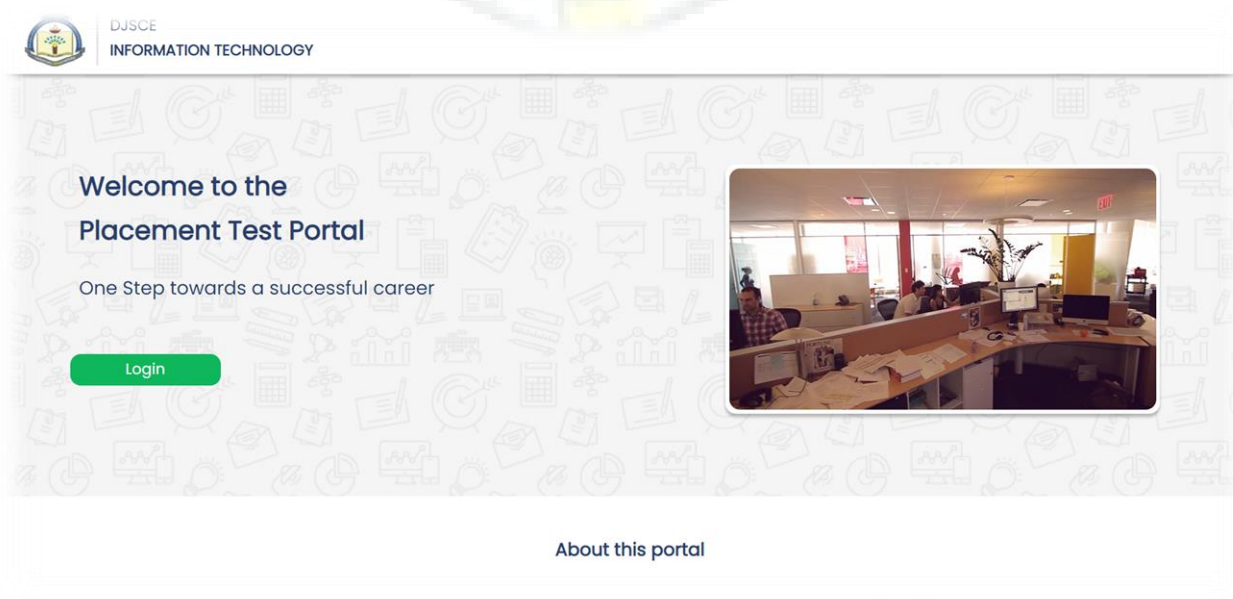

This portal is a proctored employability assessment for third and fourth-year engineering students. It gives information on a candidate's performance and areas for improvement across modules that are important for a successful career.

Students can gain knowledge and experience of the skill needs of organizations as well as the benchmarks they use for entry-level and lateral recruitment across all major industries by attempting such tests. These insights can be used to improve skills and take a step forward in a long-term career.

This portal also helps the faculty placement coordinators identify and assess students' key skills and expertise, as well as their readiness for placements. Different modules in this portal cover all relevant aspects such as cognitive, domain, personality, and others that will aid them in their preparation for placements.

Homepage

The homepage gives the brief outline of the portal and the preview of how the portal works in the form of a video. Students must click on the login button which will direct them to the login page.

Login Page

- It displays the schedule of ongoing tests and Upcoming Tests.
- Students need to click on the google icon (as shown in the figure) and register themselves on the portal.

You are all set to give the assessment. Read and Agree to the instruction given to begin the assessment.

Instructions

1. It is mandatory for you to attempt the exam in one sitting.
2. You are only allowed to attempt the exam unless access has been granted by the admin.
3. Exam will be in auto proctored mode. Therefore, don't use any unfair means during exam. The Test will be conducted in full screen mode.
4. The exam contains six modules. You must attempt every module. In case you miss any module, it will not be considered as completed and will not be evaluated for final result.
5. Make sure you have an uninterrupted Internet Connection while giving the exam (1 MBPS preferred)
6. If the screen refreshes by accident, the progress is not lost, the progress and the timer will be restored to where it was before.
7. Do not switch tabs, desktops, or browsers during the test, a warning will appear twice, indicating that the screen has been changed. The test will be auto-submitted after three warning.
8. Taking more than one test at the same time is not allowed. Multiple instances of the tests are not allowed.
9. During the test, the candidate should not switch and move out of the test window. The test will get autosubmitted.
10. If you face any issue while giving the test you need to contact on the given helpline number and your query will be resolved immediately

☐ I have read all the **instructions** and hereby accept to adhere them.

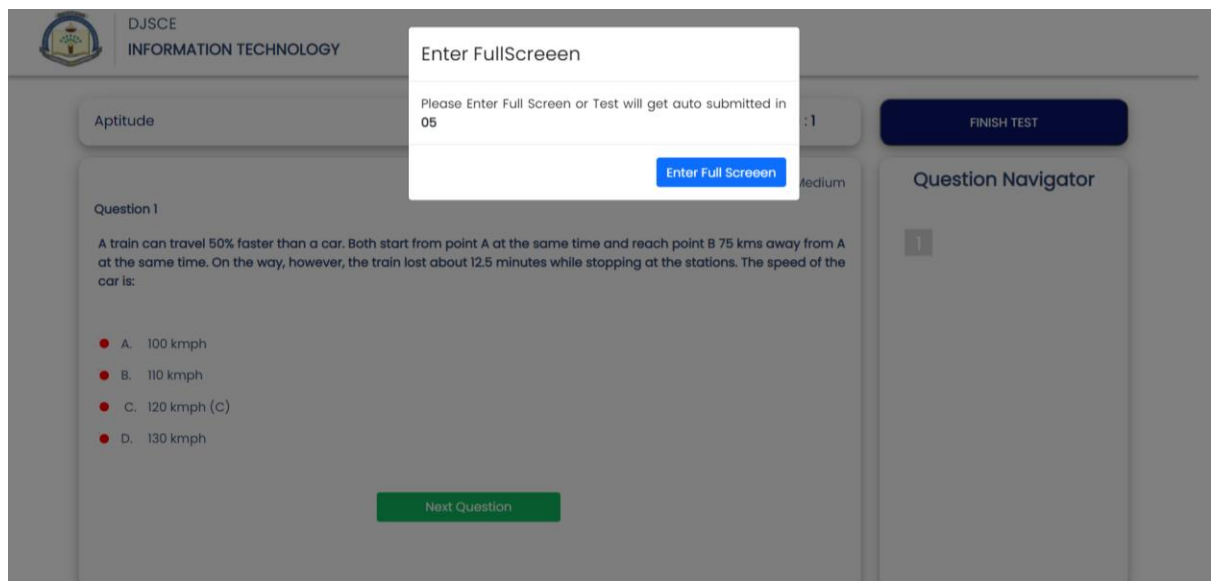

Start Test

INFORMATION TECHNOLOGY

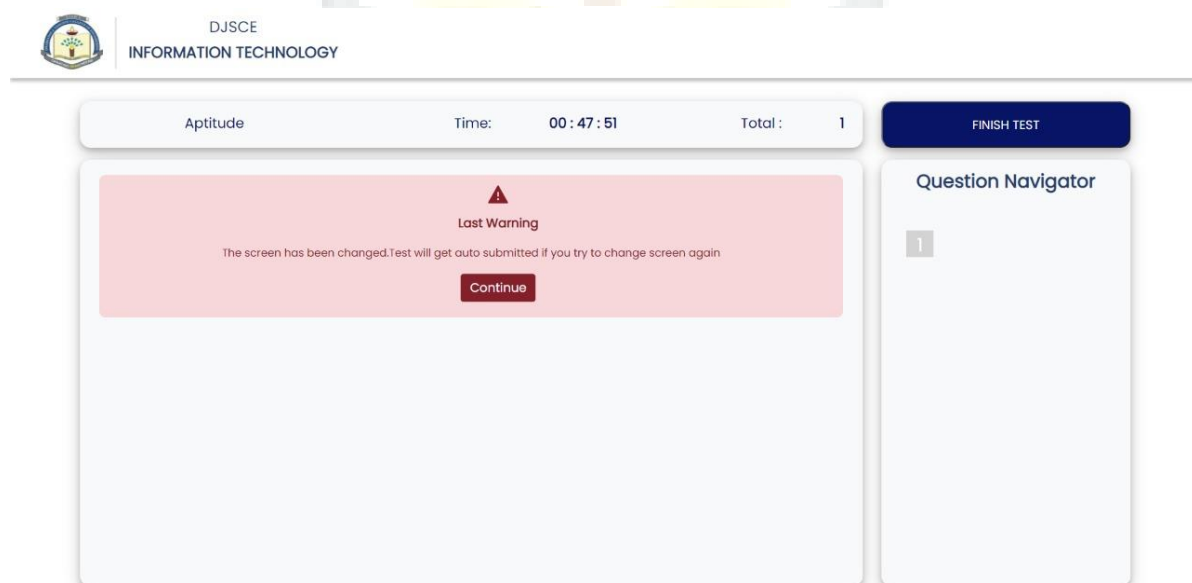

Please increase your window size

- The test can only be given in full screen.

- If a student attempts to reduce the screen, a message will appear stating that the student has only 10 seconds to return to full-screen mode before the test is auto-submitted and the result page is presented.

- If a student refreshes the screen by accident, his progress is not lost. The progress will be saved, and the timer will be reset to where it was before being refreshed.
- If a student tries to switch tabs, desktops, or browsers during the test, a warning will appear twice, indicating that the screen has been changed. If the student continues to try to move the tab despite multiple warnings, his test will be auto submitted.

- A student cannot take more than one test at the same time. If he tries to open the same test in a different tab, he will be instantly logged out of the one he just closed.

Result Page

- After test, students will be redirected to the results page, where they will get their brief overview of their performance and a detailed report to download.
